

Technical-scientific curriculum

CE.S.I.T. CONSORTIUM

The consortium "CENTRO DI SVILUPPO ITTICO TOSCANO - società cooperativa consortile a r.l." ("Ce.S.I.T.") was established in 1998 as an Ltd cooperative company.

The Consortium has its legal head offices in via dei Tintori, 1 58043 Castiglione della Pescaia (Gr), and an operational one in via Monterosa n. 42, Grosseto. The certificate of incorporation establishes that the consortium will length for 30 years; this time limit is extensible with a resolution of the General Assembly of associates.

The social aim of the company is the development of the agro-ichthyic food sector, particularly of fishing and aquaculture and the strengthening of associationism in the industry, in coherence with regional, national and communitarian plans. In this context, Ce.S.I.T. organizes and finalizes its work in coherence with trade associations' and its associates' aims as an operational tool, working in favour of associate corporations and other external subjects requesting its services.

In exercising its entrepreneurial function Ce.S.I.T. maintains its cooperative nature, guaranteed by the prohibition of distributing profits, except for the subsidizing associates and those in cooperative partnership. In particular, services offered by the Consortium are:

- promotion and development of initiatives for improvement of production, included research of innovative techniques
- economic, financial and banking consulting and assistance to improve business leanings and to rationalize access to credit
- technical and scientific consulting and assistance on techniques and system design about fisheries and aquaculture
- preparatory study, research and monitoring of marine, lagoon and aquatic environments
- organization of: training courses, professional qualification and re-qualification courses about just mentioned collaborative sectors
- commercial assistance, consulting and collaboration to strengthen fisheries and aquaculture businesses, both in regard of the request of equipment and the offering and valorization of fish products
- valorization of production through creation and/or strengthening of the cooperative distributive system aimed to controlling quotas, the distributive segment directly managed in cooperation or collaboration with the exsisting commercial network
- launch of initiatives to support the collective supply of materials and tools both for associates and for external subjects.

Ce.S.I.T. is allowed to do any activity (included, even broadly speaking, any activity related or similar to those already mentioned, accomplish real estate, movable, commercial, industrial, financial, mortgage, suretyship operations or of participation to governmental authority or companies) necessary and coherent to realize the social aims to whose it is finalized within its cooperative and consortial boundaries and in observance of the regulations in force concerning financial brokerage and savings collection from the general public.

Ce.S.I.T. is sponsored by the Central cooperatives Lega pesca, Agci pesca, Federcoopessa and Federpesca and collaborate with national structures and companies adherent to them, to the aim of reaching its cooperative purposes.

Fisheries and aquaculture research centres, existing in according to the provisions of law N. 41/82 and licensed by Mi.P.A.F. to conduct study and research in this field, collaborate with Ce.S.I.T. . These research centres, referring to Central cooperatives and fisheries and aquaculture national association, are:

- Mediterranean Consortium (Consorzio Mediterraneo): Roma, via Nazionale, 259;
- Cooperative Institute of Marine research (Istituto Cooperativo di Ricerca Marina - ICR Mare): Roma, Via A. Bargoni, 78;
- Italian Study and Research on Fishing (Centre Centro Italiano di Ricerche e Studi sulla Pesca - CIRSPE): Roma, Via dei Gigli d'Oro, 21.

The scientific and technical potentiality of Ce.S.I.T. is surely widened by the collaboration with the just mentioned research centres, operating since several years in the field with acknowledged and flattering results.

Ce.S.I.T. is registered in the National Research Registry Office established at the Ministry of Education, university and Research as No. 53386BZH.

Associate members:

- Agrimar soc. coop. a r.l. - Castiglione della Pescaia (GR)
- Aplysia soc. coop. a r.l. - Livorno (Li)
- Federpesca Servizi Toscana s.r.l. Castiglione della pescaia
- Gestimar – società cooperativa a r.l. - ROMA
- Idromar – soc coop arl Castiglione della pescaia
- Consorzio Mediterraneo, soc. coop. arl via della grande muraglia- ROMA
- Santa Maria Assunta soc. coop. a.r.l. - Livorno (Li)
- Zefiro soc. coop. a r.l. - Grosseto (GR)

PROJECTS

Date	2000
Project name	STUDY RESEARCH TO IMPROVE KNOWLEDGE AND VALORIZATION OF FISHING AND MARINE WATER AQUACULTURE ACTIVITIES IN TUSCANY
Main activities and responsibilities	Preparation of thematic maps of Tuscany areal fishing littoral zone, highlighting areas of particular interest for breeding and production. Identification of marine zones designed for marine water aquaculture south of Elba Island. Creation of a qualification brand for Tuscany fish products. General census of fishing and aquaculture universe, concerning operators, means and productive techniques used.
Name of employer	Regional Agency for Development and Innovation of Agro-Forestry sector (ARSIA - Agenzia Regionale per lo Sviluppo e l'Innovazione del settore Agricolo-Forestale)

Field of activity or sector	Fisheries and aquaculture
Date	2000
Project name	QUALIT
Main activities and responsibilities	Study research on management and technical aspects of Tuscany fish breeding to identify strong points and criticality of the sector.
Name of employer	Regional Agency for Development and Innovation of Agro-Forestry sector (ARSIA - Agenzia Regionale per lo Sviluppo e l'Innovazione del settore Agricolo-Forestale)
Field of activity or sector	Aquaculture
Date	2001
Project name	ATTEMPTS OF FISH BREEDING, FARMING AND RECOLONIZATION OF "PIKES" IN PROVINCE OF GROSSETO
Main activities and responsibilities	Realization of attempts of artificial breeding of pikes; once grown up, introduction of fry in natural environment; monitoring of breeding sites.
Name of employer	Province Administration of Grosseto
Field of activity or sector	Aquaculture
Date	2001
Project name	SURVEY AND CHARACTERIZATION OF FISHING FLEET OPERATING IN PROTECTED MARINE ZONES
Main activities and responsibilities	Identification of maritime authority offices and fishing fleet operating in protected marine zones.
Name of employer	UNIMAR Consortium - Roma
Field of activity or sector	Fisheries

Date	2001/2002
Project name	EVALUATION OF TELLINA FISHING STOCKS IN MARITIME COMPARTMENTS OF LIVORNO AND VIAREGGIO
Main activities and responsibilities	Survey of tellina and related fauna samples through watercrafts and evaluation of them considering meteorological and maritime factors, water depths and equipment used for fishing.
Name of employer	UNIMAR Consortium - Roma
Field of activity or sector	Aquaculture
Date	2001
Project name	PROMOTION OF FISH PRODUCTION PRODUCED THROUGH ORGANIC FISH BREEDINGS
Main activities and responsibilities	Promotion of fish samples produced through an organic production protocol, hailing from 5 organic fish breeding national plants of gilthead bream and seabass.
Name of employer	Consorzio Uniprom Roma
Field of activity or sector	Aquaculture
Date	2001
Project name	CERTIFICATE OF SOCIAL VOCATIONS OF WATER STREAMS IN PROVINCE OF LIVORNO
Main activities and responsibilities	Survey of water environment in province of Livorno (coastal lagoons, rivers, streams, humid zones in general), exhibition of their ecosystem and transposition on maps.
Name of employer	Province of Livorno
Field of activity or sector	Fisheries and aquaculture
Date	2001
Project name	LIVORNO HARBOUR
Main activities and responsibilities	Requalification of the Old Dock eastern groyne of Livorno Harbour

Name of employer	Province of Livorno
Field of activity or sector	Fisheries
Date	2001
Project name	IDENTIFICATION OF INNOVATIVE TYPOLOGIES AND NEW WAYS OF PRESENTATION OF TUSCANY FISH PRODUCTS TO THE AIM OF DEFINING SUITABLE COMMERCIAL STRATEGIES
Main activities and responsibilities	Combined realisation of: qualitative-quantitative study on Commercial Clients (GDO/DO/Catering); identification of a supply chain process; technical and commercial testing of the identified process.
Name of employer	Regional Agency for Development and Innovation of Agro-Forestry sector (ARSIA - Agenzia Regionale per lo Sviluppo e l'Innovazione del settore Agricolo-Forestale)
Field of activity or sector	Fisheries and aquaculture
Date	2002
Project name	STUDY ON COMMERCIAL EXPLOITATION OF SOME SPECIES OF POLYCHAETES, ATTEMPTS OF CONSERVATION AND GROWING
Main activities and responsibilities	Identification of some species of polychaetes of commercial interest, present along Tuscany coasts in marine environment and brackish water. Identification of centres or focal points of productions, storage and commercialization of species of commercial interest. Identification of sites potentially suitable to conservation/breeding activities aimed at sperimental testing or production. Try of water intakes of some species of polychaetes among those mostly compatible with environmental characteristics of sites identified for a possible breeding activity.
Name of employer	Regional Agency for Development and Innovation of Agro-Forestry sector (ARSIA - Agenzia Regionale per lo Sviluppo e l'Innovazione del settore Agricolo-Forestale)
Field of activity or sector	Fisheries and aquaculture

Date	2002
Project name	PROJECT FOR STALL, BREEDING AND WEANING OF <i>PALAEMONETES ANTENNARIUS SHRIMP</i>
Main activities and responsibilities	Acquisition of significant data about breeding of Paleomonetes, testing and comparison of different breeding methods. The general objective concerns the possibility of set up a supply chain: from breeding of larva to study of development and growing up to commercial size.
Name of employer	Regional Agency for Development and Innovation of Agro-Forestry sector (ARSIA - Agenzia Regionale per lo Sviluppo e l'Innovazione del settore Agricolo-Forestale)
Field of activity or sector	Fisheries and aquaculture
Date	2003
Project name	MUSSELS BREEDING
Main activities and responsibilities	Experimental mussels breeding
Name of employer	Regional Agency for Development and Innovation of Agro-Forestry sector (ARSIA - Agenzia Regionale per lo Sviluppo e l'Innovazione del settore Agricolo-Forestale) - CIRSPE
Field of activity or sector	Fisheries and aquaculture
Date	2003
Project name	FISH IN SQUAREPLACES
Main activities and responsibilities	Realization of an itinerant countryside festival of the “fresh fish product of third quality”: 2 days (Saturday and Sunday), the evening, during which a fresh fish menu was served with this products: mackerel, anchovies, sardines, soups, grilled fish (Flagfish, atlantic horse mackerel, squids, etc.).
Name of employer	Region of Tuscany - SFOP 2000/2006
Field of activity or sector	Fisheries and aquaculture

Date	2004
Project name	TECHNOLOGICAL ORGANIZATION
Main activities and responsibilities	Improvement of production and markets transparency, rationalization of commercialization and preparation of professionals able to interact through the web
Name of employer	Region of Tuscany - SFOP 2000/2006
Field of activity or sector	Fisheries and aquaculture
Date	2005
Project name	VALORIZATION OF ALLOCHTHONOUS SHRIMP NATURALIZED IN MASSACIUCCOLI LAKE (<i>PROCAMBERIUS CLARKII</i>) TO NOURISHING PURPOSES
Main activities and responsibilities	Market assessments and territorial study to evaluate professional exploitation potentiality of killer shrimp fishing, commercialization and planning of production and transformation researching possible added values.
Name of employer	SFOP 2000-2006 – Region of Tuscany – Province of Grosseto
Field of activity or sector	Fisheries and aquaculture
Date	2005
Project name	MONITORING OF SITES SUBJECTED TO SUBMERGED BARRIERS FOR ICHTHYIC RECOLONIZATION OF THE LITORAL ZONE OF GROSSETO
Main activities and responsibilities	Provision of a plan of monitoring regarding the area interested by the installation of a submerged barrier planned to increase the resources of the area for ichthyic re-colonization and professional fishing.
Name of employer	Green Territorial Pacts – Province of Grosseto
Field of activity or sector	Fisheries
Date	2006
Project name	ANALYSIS OF AQUACULTURE AND FISHERY SUPPLY

**CHAIN IN PROVINCE OF GROSSETO AND
PRELIMINARY EVALUATION TO CONSTITUTION OF A
QUALITY BRAND**

Main activities and responsibilities	Operational assistance in analysis of aquaculture and fishery supply chain in the lagoon area of Orbetello and in the Grosseto coastalzone.
Name of employer	Province of Grosseto
Field of activity or sector	Fisheries and aquaculture
Date	2006/2007
Project name	MONITORING SUBMERGED BARRIERS – biological monitoring of artificial barriers for fish re-colonization of the littoral zone of Maremma.
Main activities and responsibilities	Monitoring through diving and collecting of fisheries data.
Name of employer	Maremma Parc Management Authority (Ente Parco della Maremma – SFOP)
Field of activity or sector	Fisheries
Date	2006/2007
Project name	MONITORING SUBMERGED BARRIERS – biological monitoring of artificial barriers for fish re-colonization of littoral zone of Maremma.
Main activities and responsibilities	Monitoring through diving and collecting of fisheries data.
Name of employer	SFOP- Province of Grosseto
Field of activity or sector	Fisheries
Date	2006-2012
Project name	FISHERY-TOURISM DEMONSTRATIVE ACTIONS
Main activities and responsibilities	Implementation of intervention provided for by law 21.05.1998 n. 164, D.M. 25/05/2000 - adoption of VI Fisheries and Aquaculture National Plan 2000-2002 and of I Fisheries and Aquaculture

	Regional Plan referring to “scientific analysis of potential development of fishery-tourism activities”
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries
Date	2006
Project name	SPORT FISHING PLAYERS AT SEA TOGETHER WITH FISHERMEN
Main activities and responsibilities	Implementation of days of promotion of sport fishing through journeys at sea out of Tuscany coastline, planned together with recognized sport fishing associations.
Name of employer	Region of Tuscany; Tuscany Promotion (APET- Toscana Promozione)
Field of activity or sector	Fishery
Date	2006
Project name	FISHERIES TOURISM AND PROMOTION
Main activities and responsibilities	Implementation of 30 game fishing journeys along the Tuscany coast, planned together with participation of hotel facilities, to valorize and promote professional fishing activities.
Name of employer	Region of Tuscany; Tuscany Promotion - APET
Field of activity or sector	Fishery
Date	2006
Project name	FISHING DOCKS
Main activities and responsibilities	Definition of a use plan of the public and private port on medium term for professional fishery workers.
Name of employer	Programme Agreement – Region of Tuscany – European Union
Field of activity or sector	Fisheries

Date	2006
Project name	BUSINESS COUNSELING AND CONSULTING SERVICES
Main activities and responsibilities	Study and market research on motivations, inclinations and preferences of consumers towards certain species. Publication of outcomes.
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Date	2006
Project name	SPERIMENTAL FISHING OF <i>DONAX TRUNCULUS</i> TELLINA
Main activities and responsibilities	Monitoring of maritime authority offices to identify areas of major exploitation of resources, buying or implementation of 2 experimental rakes, tellina catching practical trials, data analysis and divulgation to sector operators.
Name of employer	SFOP 2000/2006 - Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Date	2006
Project name	SPERIMENTAL FISHING OF <i>SQUILLA MANTIS</i> SHELLFISH TROUGH UTILIZATION OF LOBSTER POT
Main activities and responsibilities	Implementation of 3 different types of lobster pots equipped to anchor shackle fishing, practical catching trials, data analysis and divulgation to workers in the sector.
Name of employer	2000/2006 SFOP PROJECT - Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Date	2006
Project name	FISH ROUTES

Main activities and responsibilities	Creation of a path of fish routes to promote Tuscany fisheries products
Name of employer	Region of Tuscany; Tuscany Promotion - APE
Field of activity or sector	Fisheries and aquaculture
Date	2005/2007
Project name	PRODUCTION OF AUTOCTONOUS FRY TO RECOLONIZATION
Main activities and responsibilities	Identify the best ways to recolonization of autoctonous fry of: Pike (<i>Esox Lucius</i>), Real Perch (<i>Perca Fluviatilis</i>) and Tench (<i>Tinca Tinca</i>)
Name of employer	Region of Tuscany – Province of Grosseto
Field of activity or sector	Aquaculture
Date	2006-2007
Project name	MONITORING OF PRESENCE OF PROCAMBARUS CLARKII IN THE STREAMS OF PROVINCE OF LIVORNO
Main activities and responsibilities	Doing a detailed description of presence of Louisiana shrimp (known as killer shrimp) in streams and catchment s of Livorno Province, through monitoring.
Name of employer	Region of Tuscany – Province of Livorno
Field of activity or sector	Aquaculture
Date	2007
Project name	EXPERIMENTAL FISHING OF <i>SEPIA OFFICINALIS</i> CEPHALOPODS THROUGH SEVERAL TYPES OF LOBSTER POTS
Name of employer	Region of Tuscany SFOP 2000-2006
Field of activity or sector	Fisheries

Date	2007
Project name	SEA AND LAND
Main activities and responsibilities	Valorization of regional and provincial products concerning aquaculture products of Province of Orbetello, through participation to national and international manifestations.
Name of employer	Province of Grosseto
Field of activity or sector	Fisheries and aquaculture
Date	2007
Project	TRAINING, ASSISTANCE AND DIVULGATION – LRT. 66/05
Main activities or responsibilities	Training, assistance and information activities for fishery and aquaculture companies through several channels, concerning normative updates about occupational safety, food hygiene and fishery management.
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Date	2007
Project name	TRACEABILITY
Main activities or responsibilities	Monitoring and identification of a sample of 80 ships aimed at doing traceability and labelling of fish, from primary producer to final consumer, as provided for by law. Delivery of a labelling machine to the ships and realization of a training course to use it; realization of a telematic line of data collection and of certification of operational steps.
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries

Date	2007
Project	FISH FORM HYGENE
Main activities or responsibilities	Implementation of interventions provided for by law 21.05.164, D.M. 25/05/2000 – adoption of VI Fisheries and aquaculture national plan 2002-2002 and Fisheries and aquaculture regional plan concerning “Fish, form and hygene” addressed to boarded workers.
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Date	2007
Project name	ECOCOMPATIBLE MANAGEMENT OF THE LAKE
Main activities or responsibilities	Valorization of fish products from public inland waters
Name of employer	Province of Siena
Field of activity or sector	Fisheries and aquaculture
Date	2007-2008
Project name	OBJECTIVE FISH
Main activities or responsibilities	Qualifications of productions, divulgations of fishing activities and food education.
Name of employer	Region of Tuscany; Tuscany Promotion
Field of activity or sector	Fisheries and aquaculture
Date	2007
Project name	ACTION WITH SECTOR ORGANIZATIONS– LRT. 66/05
Main activities or	Promotion and development of sector associationism aimed at improving production management, its integration with agricultural and food industry chain, management of fishing and aquaculture facilities, transfer of innovation to companies, information and divulgation. Assistance in business

responsibilities	<p>administrative management aimed at achieving the reduction of procedural times for administrative simplification.</p> <p>Sperimentation of sustainable fishing practices and integrative activities to fishing coming revenues, with particular attention to ecosystem safeguarding activities. Safeguarding and valorization of local products. Cod. prog. 1662007-2008</p>
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Data Project name	<p>2008</p> <p>FISHERIES AND AQUACULTURE REGIONAL CONFERENCE</p>
Main activities or responsibilities	Organization of the event and of conferences. Preparation of fish stands.
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture
Data Project name	<p>2008</p> <p>ACTIONS WITH THE ORGANIZATIONS IN THE INDUSTRY– LRT. 66/05</p>
Main activities or responsibilities	<p>Promotion and development of sector associationism aimed at improving production management, its integration with agricultural and food industry chain, management of fishing and aquaculture facilities, transfer of innovation to companies, information and divulgation. Assistance in business administrative management aimed at achieving the reduction of procedural times for administrative simplification.</p> <p>Sperimentation of sustainable fishing practices and integrative activities to fishing coming revenues, with particular attention to ecosystem safeguarding activities. Safeguarding and valorization of local products. Cod. prog. 1662009</p>
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture

Date	2009
Project name	KNOWING, COOKING AND EATING FRESH TUSCAN FISH
Main activities or responsibilities	Tuscan fish, periodicity of productions, how to treat the catch of the day, how and where to buy it, how to cook it, organoleptic qualities for a correct nutrition.
Name of employer	Region of Tuscany - APET
Field of activity or sector	Fisheries and aquaculture

Date	2009
Project name	ACTIONS WITH THE ORGANIZATIONS IN THE INDUSTRY – LRT. 66/05
Main activities and responsibilities	Promotion and development of sector associationism aimed at improving production management, its integration with agricultural and food industry chain, management of fishing and aquaculture facilities, transfer of innovation to companies, information and divulgation. Assistance in business administrative management aimed at achieving the reduction of procedural times for administrative simplification. Sperimentation of sustainable fishing practices and integrative activities to fishing coming revenues, with particular attention to ecosystem safeguarding activities. Safeguarding and valorization of local products. Cod. prog. 1662009
Name of employer	Region of Tuscany
Field of activity or sector	Fisheries and aquaculture

Date	2009/2010/2011
Project name	TECHNICAL ASSISTANCE PROVINCIAL ADMINISTRATION OF GROSSETO
Main activities and responsibilities	Assistance to technical planning and management: evaluation, monitoring and verifying financial fluxes of provincial programmes for fisheries and aquaculture along years. Improving Public Administration functioning in exercising activities authorized by L.T.R. 66/2005, in terms of front-office, internal updating and constitution of documental and normative archives.

Name of employer	Provincial administration of Grosseto
Field of activities or sector	Fisheries and aquaculture
Date	2009/2010
Project name	TRAINING OF PROFESSIONALS ON FISHERIES AND AQUACULTURE HYGENE (L.R.66/2005)
Main activities and responsibilities	Study, planning and implementation of a training course on importance of hygiene in fisheries and aquaculture according to regional, national and communitarian law in Pisa maritime authority offices. Delivery of a certificate of attendance as provided by for law.
Name of employer	Provincial administration of Pisa
Field of activities or sector	Fisheries and aquaculture
Date	2009/2010/2011
Project name	“PESCA.to SI.curo” TRAINING OF PROFESSIONALS ON FISHERIES AND AQUACULTURE HYGENE (L.R.66/2005)
Main activities and responsibilities	Study, planning and implementation of a training course on importance of hygiene in fisheries and aquaculture according to regional, national and communitarian law in Livorno maritime authority offices: Piombino, Isola d'Elba e Livorno. Delivery of a certificate of attendance as provided by for law.
Name of employer	Provincial administration of Livorno
Field of activities or sector	Fisheries and aquaculture
Date	2009/2010/2011/2012
Project name	SELECTIVE FISHING OF PROCAMBARUS CLARKII
Main activities and responsibilities	Fishing, monitoring, stall, storage and observation of Louisiana shrimp behaviour and organization of degustation to define its nutritional potential.
Name of employer	Provincial administration of Grosseto
Field of activities or sector	Fisheries and aquaculture
Date	2009
Project name	“SICA.AL.” TRAINING OF PROFESSIONALS ON FISH CATCH SAFETY (L.R. 66/2005)

Main activities and responsibilities	Study, planning and implementation of a training course on importance of fish catch safety in Grosseto maritime authority offices: Marina di Grosseto, Castiglione della Pescaia, Porto Ercole e Porto Santo Stefano. Delivery of a certificate of attendance as provided by for law.
Name of employer	Provincial administration of Grosseto
Field of activities or sector	Fisheries and aquaculture
Date	2009
Project name	TRAINING OF PROFESSIONALS ON FISHERIES AND AQUACULTURE HYGENE (L.R. 66/2005)
Main activities and responsibilities	Study, planning and implementation of a training course on importance of hygiene in fishing and aquaculture according to regional, national and communitarian law in Lucca maritime authority offices. Delivery of a certificate of attendance as provided by for law.
Name of employer	Provincial administration of Lucca
Field of activities or sector	Fisheries and aquaculture
Date	2009
Project name	TRAINING OF PROFESSIONALS ON FISHERIES AND AQUACULTURE HYGENE (L.R. 66/2005)
Main activities and responsibilities	Study, planning and implementation of a training course on importance of hygiene in fishery and aquaculture according to regional, national and communitarian law in Siena maritime authority offices. Delivery of a certificate of attendance as provided by for law.
Name of employer	Provincial administration of Siena
Field of activities or sector	Fisheries and aquaculture
Date	2010 -2011
Project name	FISH-TOURISM PROMOTION – PROMOTIONAL ACTIVITIES FOR SUPPLY CHAIN OPERATORS
Main activities and responsibilities	Promotion of FishTourism offer through the touristic supply chain composed of touristic operators.
Name of employer	Region of Tuscany
Field of activities or sector	Fishery and aquaculture
Date	2010
Project name	ACTIONS WITH THE ORGANIZATIONS IN THE INDUSTRY – LRT. 66/05

Main activities and responsibilities	Promotion and development of sector associationism aimed at improving production management, its integration with agricultural and food industry chain, management of fishing and aquaculture facilities, transfer of innovation to companies, information and divulgation. Assistance in business administrative management aimed at achieving the reduction of procedural times for administrative simplification. Sperimentation of sustainable fishing practices and integrative activities to fishing coming revenues, with particular attention to ecosystem safeguarding activities. Safeguarding and valorization of local products. Prog. Cod 1662010
Name of employer	Region of Tuscany
Field of activities or sector	Fishery and aquaculture
Date	2010
Project name	IMAGE AND PROMOTION THROUGH FAIR AND CONVENTIONS
Main activities and responsibilities	Innovation and effectiveness of industry image, promotion of its productions within the traditional fairs systems, fishery and aquaculture conventions and related activities with the aim of achieving a new product communication and consumer protection.
Name of employer	Region of Tuscany
Field of activities or sector	Fisheries and aquaculture
Date	2009-2010
Project name	PROMOTION OF LESS IMPORTANT VALUE FISH
Main activities and responsibilities	Promotion of less important value fish to restaurants.
Name of employer	Province of Grosseto
Field of activities or sector	Fisheries and aquaculture
Date	2010 - 2011
Project name	INTENSIVE BREEDING AND FARMING OF ROYAL PERCH AND GROWING TRIALS OF ROYAL PERCH AND ATHERINA
Main activities and	Breeding trials of Atherina and Royal perch

responsibilities	
Name of employer	Region of Tuscany; ARSIA
Field of activities or sector	Fisheries and aquaculture
Date	2010
Project name	PROMOTIONAL ACTIVITIES WITHIN “FISHWORLD” FAIR 2010 (“MONDOPECA” 2010)
Main activities and responsibilities	Realization of promotional and informative materials; of an exhibition itinerary with fishing equipment, photos and informative labels; educational projects in schools.
Name of employer	Province of Massa Carrara
Field of activities or sector	Fisheries and aquaculture
Date	2010-2011
Project name	“FISHWORLD” FAIR (“MONDOPECA”) - “CARRARA FAIRS” (“CARRARAFIERE”)
Main activities and responsibilities	Organization of 3 conferences and set-up of a stand for Tuscany Region
Name of employer	CarraraFiere (Carrara Fairs)
Field of activities or sector	Fisheries and aquaculture
Date	2010
Project name	TRAINING OF PROFESSIONALS ON FISHERIES AND AQUACULTURE HYGENE (L.R. 66/2005) – From fisherman to fish entrepreneur
Main activities and responsibilities	Professional training of industry operators about communitarian normative updating, fishing and sailing techniques, commercialization and work consulting
Name of employer	Province of Lucca
Field of activities or sector	Fisheries
Date	2011
	RURAL EXPO

Project name	Fishing area organization within the regional manifestation, photos, poster designing and dvd
Main activities and responsibilities	Region of Tuscany Fisheries and aquaculture
Name of employer Field of activities or sector	
Date	2011
Project name	TRAINING OF PROFESSIONALS ON FISHING AND AQUACULTURE HYGENE (L.R. 66/2005) – Maritime fishery workers
Main activities and responsibilities	Professional training on food hygiene and FAO Code of Behaviour updating.
Name of employer Tipo di attività	Province of Massa Carrara Fishery
Date	2010
Project name	CROOS BORDER COOPERATION PROGRAMME ITALY FRANCE “MARITTIMO” (“MARITIME”) 2007-2013 – SEA, RURALITY AND LAND, STRENGTHENING STRATEGIC UNITY – MA_R_TE + SB SUB-PROJECT
Main activities and responsibilities	Monitoring of artisanal fishing – research and survey at Tuscany maritime authority offices – logbook artisanal fishery
Name of employer Field of activities or sector	CIBM Professional fisheries
Date	2011-2012
Project name	TRAINING OF PROFESSIONALS ON FISHERIES AND AQUACULTURE HYGENE (L.R. 66/2005) – “Pesca.Si” Safe Fishing
Main activities and responsibilities	Professional training on food hygiene.
Name of employer Field of activities or sector	Province of Livorno Fisheries
Date	2011

Data	
Project name	ACTIVITIES WITH INDUSTRY ORGANIZATION – programme implementation 2007-2010
Main activities and responsibilities	Promotion and development of sector associationism aimed at improving production management, its integration with agricultural and food industry chain, management of fishing and aquaculture facilities, transfer of innovation to companies, information and divulgation. Assistance in business administrative management aimed at achieving the reduction of procedural times for administrative simplification. Sperimentation of sustainable fishing practices and integrative activities to fishing coming revenues, with particular attention to ecosystem safeguarding activities. Safeguarding and valorization of local products. Cod. prog. 1662011
Name of employer	Region of Tuscany - LRT 66/2005
Field of activities or sector	Fisheries and aquaculture
Date	2012
Project name	REALIZATION OF A BRAND FOR LOCAL FISHERY WITHIN THE COMUNITARIAN PROGRAMME "EFF 2007-2013 - AXIS 3 - ACTION 3.4
Main activities and responsibilities	Reconnaissance of industry sector and of main fisheries tipology used by local maritime offices; analysis of fishery supply chain and critical points of fish product treatment until first dealer; processing survey data and provision of protocol and disciplinary guidelines ; provision of a small guide and of a depliant about main fish living in our seas, particularly including: a text on fish catch referred to main fish and their periodicity.
Name of employer	Province of Grosseto – Region of Tuscany FEP 2007-2013
Field of activities or sector	Fisheries and aquaculture
Date	2012
Project name	ORGANIZATION AND IMPLEMENTATION OF FISHERY-TOURISM JOURNEYS AT SEA
Main activities and responsibilities	Organization of 20 fishery-tourism journeys at sea with own adequate watercraft according to current regulations; promotion of activities on press, television and opinion leader, including tourists and schools.
Name of employer	

Field of activities or sector	Province of Grosseto – Region of Tuscany FEP 2007-2013 Fisheries and aquaculture
Date	2012
Project name	IMPLEMENTATION OF FISHERY-TOURISM PROMOTIONAL ACTIVITIES
Main activities and responsibilities	Implementation of a fisheries-tourism promotional activity: 3 fisheries-tourism journeys at sea within tourism promotional channels.
Name of employer	Province of Livorno
Field of activities or sector	Fisheries and aquaculture
Date	2012
Project name	IMPLEMENTATION OF PROMOTIONAL ACTIVITIES OF FISHING AND AQUACULTURE PRODUCTS WITHIN THE COMMUNITARIAN PROGRAMME EFF 2007-2013 (Project code 0706U)
Main activities and responsibilities	Meetings and degustation of products in 55 subjects selected among “Shop windows in Tuscany” (“Vetrine in Toscana”), canteens and gas within the communitarian programme Fep 2007-2013
Name of employer	Province of Grosseto
Field of activities or sector	Fisheries and aquaculture
Date	2012
Project name	ACTIONS WITH SECTOR PROFESSIONAL ORGANIZATIONS (project code B 1.7 A 2012)
Main activities and responsibilities	Implementation of a project related to action b.1.7 a enforcing the rural forestry regional plan 2012-2015, section b. fisheries and aquaculture - approved by C.R. number 3 of 24/1/2012
Name of employer	Region of Tuscany
Field of activities or sector	Fisheries and aquaculture

Date	2013
Project name	ACTIONS WITH SECTOR PROFESSIONAL ORGANIZATIONS (project code B 1.7 A 2012)
Main activities and responsibilities	Implementation of a project related to action b.1.7 a enforcing the rural forestry regional plan 2012-2015, section b. fisheries and aquaculture
Name of employer	- approved by C.R. number 3 of 24/1/2012 Region of Tuscany
Field of activities or sector	Fisheries and aquaculture

Date	2013
Project name	FISHERIES PROMOTION 01PRO12
Main activities and responsibilities	n.40 fisheries-tourism journeys addressed to persons who make use of local accommodation facilities. The journeys started from the port of Castiglione della Pescaia
Name of employer	Town of Castiglione della Pescaia Tuscany Region 2007-2013 EFF
